

Tile Grout Glass Beads

Technical Data Sheet (TDS)

Tile Grout Glass beads (According to FDA regulations)

Product function

We have Virgin Glass made glass bead (free of heavy metals, we have the test certificate of approval of FDA) has the features of chemical stability, high mechanical intensity and hardness. It can be used in the Tile Grout application, Grout is weather resistant and can be used for both indoor and outdoor applications.

Technical references

Appearance: Clean and transparent, no visible bubbles and impurity.

Density: 2.4-2.6 grams / cm³

Hardness: 7 mol

Spherical beads: >95%

SiO₂ content: >70%

Advantages:

Silica-free

Non-toxic and inert

Manufactured from 100% Virgin Glass

Grade GTGB

Particle Size:

150-250 micron

250-500 microns
