

Glass Beads For Weighed Blankets

Technical Data Sheet (TDS)

DGB-Glass Spheres For Teeth (According to FDA regulations)

Product Function:

We have Food/Medical grade Virgin Glass made glass beads has the features of chemical stability, high mechanical intensity and hardness. It can be used in weighted blankets application

Technical references

Appearance: Clean and transparent, no visible bubbles and impurity.

Oil Absorption:18g oil/100g spheres

Bulk Density:95lbs/cu.ft (ASTM D-3101-78)

Hardness: 7 mol

Spherical spheres:>95%

SiO₂ content:>70%

Advantages:

Silica-free

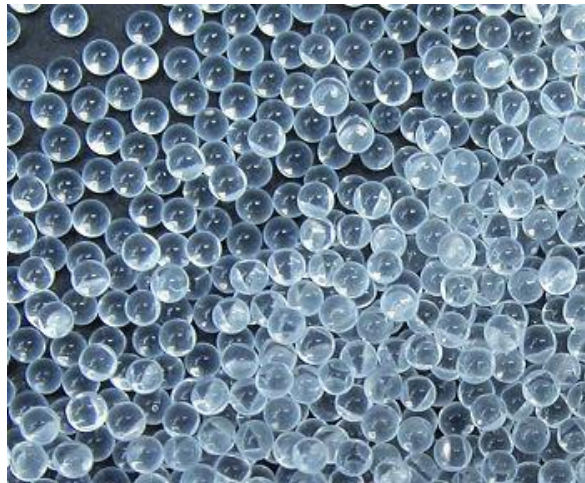

Non-toxic and inert

Manufactured from 100% virgin glass

Grades:

Particle Size in Micron

0.6-0.8mm 0.8-1.2mm 1-1.5mm
