# Bright Combined Glass Beads

We can combine different kinds of small & large sizes glass beads perfectly. This kind of glass beads can get very good reflective result (**More than 500mcd**) in wet-night.

The effect of retroreflection works perfectly under dry conditions.

However, when it is raining at night, retroreflection with conventional glass beads is reduced to almost zero.

## Landscapus

has a solution for this problem

Code No. LSKB-GB-BC

Micron	Passing
1700	100%
1400	95-100%
1180	80-95%
1000	10-40%
850	0-5%
710	0-2%
